His 2002 nonfiction bestseller Bringing Down the House: The Inside Story of Six M.I.T. Students Who Took Vegas for Millions, on which the movie 21 is based, has faced scrutiny for its embellishment and massaging of the facts that make up the MIT Blackjack Team's true story. "I don't even know if you want to call the things in there exaggerations, because they're so exaggerated they're basically untrue," said John Chang, one of the inspirations for the Micky Rosa (Kevin Spacey) character.

Real MIT Blackjack Team - 21 Movie True Story

Bringing Down the House: The Inside Story of Six MIT Students Who Took Vegas for Millions is a book by Ben Mezrich about a group of MIT card counters commonly known as the MIT Blackjack Team. Though the book is classified as non-fiction, the Boston Globe alleges that the book contains significant fictional elements, that many of the key events propelling the drama did not occur in real life, and that others were exaggerated greatly. The book was adapted into the movies 21 and The Last Casino.

The #1 national bestseller, now a major motion picture, 21—the amazing inside story about a gambling ring of M.I.T. students who beat the system in Vegas—and lived to tell how. Robin Hood meets the Rat Pack when the best and the brightest of M.I.T. ’ s math students and engineers take up blackjack under the guidance of an eccentric mastermind. Their small blackjack club develops from an experiment in counting cards on M.I.T. ’ s campus into a ring of card savants with a system for playing large and winning big. In less than two years they take some of the world ’ s most sophisticated casinos for more than three million dollars. But their success also brings with it the formidable ire of casino owners and launches them into the seedy underworld of corporate Vegas with its private investigators and other violent heavies.

After five weeks on the "New York Times" bestseller list in hardcover, Mezrich's inside story of the young card-counting masterminds who took on Vegas is poised to reach an even wider audience in its new paperback edition.

As part of the notorious MIT Team depicted in Ben Mezrich’s now classic Bringing Down the House, Jeff Ma used math and statistics to master the game of blackjack and reap handsome rewards at casinos. Years later, Ma has inspired not only a bestselling novel and hit movie, but has also started three different companies—the latest of which, Citizen Sports, is an innovative marriage of sports, betting, and digital technology—and launched a successful corporate speaking career. The House Advantage reveals Ma’s cutting-edge mathematical insights into the world of statistics and makes them applicable to a wide business audience. He argues that numbers are the key to analyzing nearly everything in the world of business, from how to spot and profit from global market inefficiencies to having multiple backup plans in anticipation of every probability. Ma’s stories and business lessons are as intriguing as they are universally applicable.

Does what's on your desk reveal what's on your mind? Do those pictures on your walls tell true tales about you? And is your favorite outfit about to give you away? For the last ten years psychologist Sam Gosling has been studying how people project (and protect) their inner selves. By exploring our private worlds (desks, bedrooms, even our clothes and our cars), he shows not only how we showcase our personalities in unexpected-and unplanned-ways, but also how we create personality in the first place, communicate it others, and interpret the world around us. Gosling, one of the field’s most innovative researchers, dispatches teams of scientific snoops to poke around dorm rooms and offices, to see what can be learned about people simply from looking at their stuff. What he has discovered is astonishing: when it comes to the most essential components of our personalities-from friendliness to flexibility—the things we own and the way we arrange them often say more about us than even our most intimate conversations. If you know what to look for, you can figure out how reliable a new boyfriend is by peeking into his medicine cabinet or whether an employee is committed to her job by analyzing her cubicle. Bottom line: The insights we gain can boost our understanding of ourselves and sharpen our perceptions of others. Packed with original research and fascinating stories, Snoop is a captivating guidebook to our not-so-secret lives.

He played in casinos around the world with a plan to make himself richer than anyone could possibly imagine -- but it would nearly cost him his life. Semyon Dukach was known as the Darling of Las Vegas. A legend at age twenty-one, this cocky hotshot was the biggest high roller to appear in Sin City in decades, a mathematical genius with a system the casinos had never seen before and couldn't stop -- a system that has never been revealed until now; that has nothing to do with card counting, wasn't illegal, and was more powerful than anything that had been tried before. Las Vegas. Atlantic City. Aruba. Barcelona. London. And the jewel of the gambling crown -- Monte Carlo. Dukach and his fellow MIT students hit them all and made millions. They came in hard, with stacks of cash; big, seemingly insane bets; women hanging on their arms; and fake identities. Although they were taking classes and studying for exams during the week, over the weekends they stormed the blackjack tables only to be harassed, banned from casinos, threatened at gunpoint, and beaten in Vegas's notorious back rooms. The stakes were high, the dangers very real, but the players were up to the challenges, consequences be damned. There was Semyon Dukach himself, bored with school and broke; Victor Cassius, the slick, brilliant MIT grad student who galvanized the team; Owen Keller, with stunning ability but a dark past that would catch up to him; and Allie Simpson, bright, clever, and a feast for the eyes. In the classroom, they were geeks. On the casino floor, they were unstoppable. Busting Vega\$ is Dukach's unbelievably true story; a riveting account of monumental greed, excess, hubris, sex, love, violence, fear, and statistics that is high-stakes entertainment at its best.

The New York Times bestselling author of Bringing Down the House and The Accidental Billionaires tells his most incredible story yet: A true drama of obscene wealth, crime, rivalry, and betrayal from deep inside the world of billionaire Russian oligarchs that Booklist called “ one more example of just how talented a storyteller [Mezrich] is. ” Meet two larger-than-life Russians: former mathematician Boris Berezovsky, who moved into more lucrative ventures as well as politics, becoming known as the Godfather of the Kremlin; and Roman Abramovich, a dashing young entrepreneur who built one of Russia ’ s largest oil companies from the ground up. After a chance meeting on a yacht in the Caribbean, the men became locked in a complex partnership, surfing the waves of privatization after the fall of the Soviet regime and amassing mega fortunes while also taking the reins of power in Russia. With Berezovsky serving as the younger entrepreneur ’ s krysha—literally, his roof, his protector—they battled their way through the “ Wild East ” of Russia until their relationship soured when Berezovsky attacked President Vladimir Putin in the media. Dead bodies trailed Berezovsky as he escaped to London, where an associate died painfully of Polonium poisoning, creating an international furor. As Abramovich prospered, Berezovsky was found dead in a luxurious London town house, declared a suicide. With unprecedented, exclusive first-person sourcing, Mezrich takes us inside a world of unimaginable wealth, power, and corruption to uncover this exciting story, a true-life thriller epic for our time— “ Wolf Hall on the Moskva ” (Bookpage).

The bestselling author of The Accidental Billionaires and The 37th Parallel tells the fascinating Jurassic Park-like story of the genetic restoration of an extinct species—the woolly mammoth. “ Paced like a thriller...Woolly reanimates history and breathes new life into the narrative of nature ” (NPR). With his “ unparalleled ” (Booklist, starred review) writing, Ben Mezrich takes us on an exhilarating and true adventure story from the icy terrain of Siberia to the cutting-edge genetic labs of Harvard University. A group of scientists work to make fantasy reality by splicing DNA from frozen woolly mammoth into the DNA of a modern elephant. Will they be able to turn the hybrid cells into a functional embryo and potentially bring the extinct creatures to our modern world? Along with this team of brilliant scientists, a millionaire plans to build the world ’ s first Pleistocene Park and populate a huge tract of the Siberian tundra with ancient herbivores as a hedge against an environmental ticking time bomb that is hidden deep within the permafrost. More than a story of genetics, this is a thriller illuminating the real-life race against global warming, of the incredible power of modern technology, of the brave fossil hunters who battle polar bears and extreme weather conditions, and the ethical quandary of cloning extinct animals. This “ rollercoaster quest for the past and future ” (Christian Science Monitor) asks us if we can right the wrongs of our ancestors who hunted the woolly mammoth to extinction and at what cost?

A New York Times Notable Book! A New York Times Book Review Editors' Choice The story of how Newt Gingrich and his allies tainted American politics, launching an enduring era of brutal partisan warfare When Donald Trump was elected president in 2016, President Obama observed that Trump "is not an outlier; he is a culmination, a logical conclusion of the rhetoric and tactics of the Republican Party." In Burning Down

the House, historian Julian Zelizer pinpoints the moment when our country was set on a path toward an era of bitterly partisan and ruthless politics, an era that was ignited by Newt Gingrich and his allies. In 1989, Gingrich brought down Democratic Speaker of the House Jim Wright and catapulted himself into the national spotlight. Perhaps more than any other politician, Gingrich introduced the rhetoric and tactics that have shaped Congress and the Republican Party for the last three decades. Elected to Congress in 1978, Gingrich quickly became one of the most powerful figures in America not through innovative ideas or charisma, but through a calculated campaign of attacks against political opponents, casting himself as a savior in a fight of good versus evil. Taking office in the post-Watergate era, he weaponized the good government reforms newly introduced to fight corruption, wielding the rules in ways that shocked the legislators who had created them. His crusade against Democrats culminated in the plot to destroy the political career of Speaker Wright. While some of Gingrich's fellow Republicans were disturbed by the viciousness of his attacks, party leaders enjoyed his successes so much that they did little collectively to stand in his way. Democrats, for their part, were alarmed, but did not want to sink to his level and took no effective actions to stop him. It didn't seem to matter that Gingrich's moral conservatism was hypocritical or that his methods were brazen, his accusations of corruption permanently tarnished his opponents. This brand of warfare worked, not as a strategy for governance but as a path to power, and what Gingrich planted, his fellow Republicans reaped. He led them to their first majority in Congress in decades, and his legacy extends far beyond his tenure in office. From the Contract with America to the rise of the Tea Party and the Trump presidential campaign, his fingerprints can be seen throughout some of the most divisive episodes in contemporary American politics. Burning Down the House presents the alarming narrative of how Gingrich and his allies created a new normal in Washington.

The bestselling coming-of-age classic, acclaimed by critics, beloved by readers of all ages, taught in schools and universities alike, and translated around the world—from the winner of the 2019 PEN/Nabokov Award for Achievement in International Literature. The House on Mango Street is the remarkable story of Esperanza Cordero, a young Latina girl growing up in Chicago, inventing for herself who and what she will become. Told in a series of vignettes-sometimes heartbreaking, sometimes deeply joyous-Sandra Cisneros' masterpiece is a classic story of childhood and self-discovery. Few other books in our time have touched so many readers.
