Don't hate me because I'm beautiful... Call me V. I used to be a nobody, just a girl from New Jersey who was probably going to hell anyway -- or worse, mediocrity and a size 14. Now I get whatever I desire just by casting a little spell....a flawless body, a luxury penthouse, and a Fifth Avenue shop where rich women clamor for my overpriced handbags. Even better, I have power. I can taunt my ex-husband, break hearts without guilt, and love every minute of it. My secret? I lost the one thing I never needed in the first place: my soul. I sold it. And you'll never guess who's got it now. She's a devil in disguise. You know her as the dishiest gossip columnist in the city's trashiest tabloid. I call her Lucy. And our deal is this: the more clients I recruit for her Life Enrichment Program, the greater my rewards. But just between us, my fast track to heartless apathy has hit a few speed bumps -- lately, I've had the totally annoying impulse to do things that are...good. First there was rescuing a kid in the park. Then there was the date with the handsome, decent guy who wasn't even a celebrity. What's next, giving to charity or something? All I know is Lucy doesn't like it, not one little bit. And when she finds out, there will be hell to pay...

Real moms. Real advice. Real fast. The experts tell you what you should be doing. But they don't know what you're really going through. We do. We're real moms. When you're so sleepy you can't remember the last time you brushed your teeth, and you find yourself crying at diaper commercials, you know you're a new mom. And the only thing you need right now -- besides a housekeeper, a personal trainer, a masseuse, and a very long nap -- is a crash course in mommy know-how. Look no further! The Gallagher Guide to the Baby Years gives you the straight skinny on everything from coping with morning sickness to making potty training a breeze. It's a handy reference of indispensable product ratings, brand recommendations, and advice that's been tested in the trenches. All ranked, rated, and ready for you to use right now! Discover: how real moms cope with morning sickness, heartburn, and bed rest the one infant car seat no mom should be without the ten most important features to look for in a stroller why you don't have to buy a pricey high chair -- and what to get that's cheaper and better eight sure-fire strategies for getting baby to sleep through the night seven secrets for getting dad to help out more incredible tools for time-crunched moms ...and much, much more in this essential "cheat sheet" for the twenty-first century mom. From Kapolei, Hawaii, to Kent, England, the 200 moms -- including 30 doctor-moms -- who contributed to the book come from all over the world.

Since independence, the West African sub-region has been an arena for a number of large-scale conflicts and civil wars, as well as simmering and low-intensity uprisings. Contrary to perceptions, West Africa in its post-independence history has experienced fewer conflict events and fatalities from conflict than the other sub-regions on the continent. The turn of the millennium has witnessed the recession of large-scale and conventional conflict, and it has ushered in new and emerging threats. The specters of religious extremism, maritime piracy, and narcotics trafficking threaten to undermine some of the progress achieved in recent years. The Challenge of Stability and Security in West Africa critically examines the key drivers of conflict and violence, and the way in which they impact the countries of the sub-region. In addition to emerging threats, these drivers include the challenges of youth inclusion, migration, sub-regional imbalances, and extractives, as well as challenges related to the fragility of political institutions and managing the competition for power, reform of the security sector, and weakness of institutions related to land management. The book explores how the sub-region, under the auspices of the regional organization ECOWAS, has become a pioneer on the continent in terms of addressing regional challenges. The Challenge of Stability and Security in West Africa also identifies key lessons in the dynamics of resilience in the face of political violence and civil war drawn from Côte d'Ivoire, Liberia, and Sierra Leone, that can be useful for countries around the world in similar situations. It incorporates knowledge and findings from leading experts and provides insights from academics and development practitioners. Finally, the book identifies possible policy and programmatic responses and directions for policy dialogue at the national and international levels.

This new, expanded and updated edition of Handbook of ICU Therapy builds on the success of the first edition and continues to provide concise information on a broad spectrum of issues relating to care of the critically ill patient. There are also several new, topical chapters. As with the first edition, it is equally applicable to anaesthetists, intensivists, operating department practitioners and anaesthetic/theatre/recovery nurses, and the heart of the book focuses on providing practical information in a readable and easily accessible format. All of the authors are directly involved in ICU practice and/or research and are familiar with the most recent developments in this fast-moving area of medicine.

Provides coverage of the issues surrounding geriatric critical care, emphasising assessment and treatment.

This clinical casebook is comprised of surgical cases involving the most important cardiovascular diseases in a concise, easy-to-read format (5x8 in trim size, like other titles in this burgeoning, informal product line in the Springer clinical medicine program). Each chapter is a case that opens with a unique clinical presentation, followed by a description of the diagnosis, assessment and management techniques used to treat it, as well as questions and answers (between 8 and 10) about relevant aspects related to the diagnosis and treatment of the addressed disease. The Q&A section will broaden discussion and increase the title's pedagogical value. The casebook features 40 surgical cases in the following thematic areas: Aortic Disease, Arrhythmias, Cardiac Tumors, Coronary Insufficiency, Congenital Heart Disease, Endovascular Therapies, Heart Failure, Heart Transplantation, Mechanical Circulatory Support, Pericardial Disease, Pulmonary Embolism and Valvular Heart Disease. This book will be prepared by the Brazilian Department for Academic Leagues of Cardiovascular Surgery, within the Brazilian Society of Cardiovascular Surgery (BSCVS). This department is the section within BSCVS that consists of the academic leagues of cardiovascular surgery from each university throughout the country. In Brazil, medical academic leagues are organizations that gathers students, interns and residents to discuss a certain topic and promote research and teaching-oriented extra-class activities, supervised by a group of professors. Thus trainees will have involvement in writing the chapters and the senior professor supervisors will edit and finalize the work. Basically, each chapter is written by an intern or resident and, ultimately, his/her supervisor. As the books volume editors, doctors Almeida and Jatene will have final responsibility for the cases and overall manuscript.
