In the establishment of the African diaspora, the transatlantic slave trade is often
considered the defining element, but people of African descent have engaged in
eleven other migration movements involving North America since the 16th
century, many being voluntary migrations, although undertaken in exploitative and
hostile environments.

Historically, much of the African diaspora population began in the Americas, Europe and later expanded in Asia. A significant reason for this occurred during the slave trade era across the Arab and Atlantic Ocean. Scholars believe that this was the origins of the concept of the African diaspora, which occurred during the 16th and 19th centuries.

Redistributions of European and Asian populations have also marked history, but the African Diaspora is unique in its formation. It is a story, or a collection of stories, like no other. As an undergraduate text, this book is written at a time of considerable perplexity, ambiguity, and seeming contradiction.

Patrick Manning follows the multiple routes that brought Africans and people of African descent into contact with one another and with Europe, Asia, and the Americas. In joining these stories, he shows how the waters of the Atlantic Ocean, the Mediterranean Sea, and the Indian Ocean fueled dynamic interactions among black communities and cultures and how these patterns resembled those of a number of connected diasporas concurrently taking shape across the globe. Manning begins in 1400 and traces the connections that enabled Africans to mutually identify and hold together as a global community. He tracks discourses on race, changes in economic circumstance, the evolving character of family life, and the growth of popular culture. He underscores the profound influence that the African diaspora had on world history and demonstrates the inextricable link between black migration and the rise of modernity. Inclusive and far-reaching, *The African Diaspora* proves that the advent of modernity cannot be fully understood without taking the African peoples and the African continent into account.

In this definitive study of the African diaspora in North America, Toyin Falola offers a causal history of the western dispersion of Africans and its effects on the modern world.

This 2005 book examines the global unfolding of the migrations and dispersals of the African Diaspora.

Captures the essential political, cultural, social, and economic developments that shaped the black experience.

The term 'Black Atlantic' was coined to describe the social, cultural and political space that emerged out of the experience of slavery, exile, oppression, exploitation and resistance. This volume seeks to recast a new map of the 'Black Atlantic' beyond the Anglophone Atlantic zone by focusing on Brazil as a social and cultural space born out of the Atlantic slave trade. The contributors draw from the recently reinvigorated scholarly debates which have shifted inquiry from the explicit study of cultural 'survival' and 'acculturation' towards an emphasis on placing Africans and their descendants at the center of their own histories. Going beyond the notion of cultural 'survival' or 'creolization', the contributors explore different sites of power and resistance, gendered cartographies, memory, and the various social and cultural networks and institutions that Africans and their descendants created and developed in Brazil. This book illuminates the linkages, networks, disjunctions, sense of collective consciousness, memory and cultural imagination among the African-descended populations in Brazil. This book was originally published as a special issue of *African and Black Diaspora: An*

Fire Under My Feet seeks to expose the diverse, significant, and often under-researched historical and developmental phenomena revealed by studies in the dance systems of the African Diaspora. In the book, written documentation and diverse methodologies are buttressed by the experiences of those whose lives are built around the practice of African diaspora dance. Replete with original perspectives, this book makes a significant contribution to dance and African diaspora scholarship simultaneously. Most important, it highlights the work of researchers from Ecuador, India, Puerto Rico, the United States, and the United Kingdom, and it exposes under-researched and omitted voices of the African diaspora dance world of the aforesaid locations and Puerto Rico, Columbia, and Trinidad as well. This study showcases a blend of scholars, dance practitioners, and interdisciplinarity, and engages the relationship between African diaspora dance and the fields of history, performance studies, critical race theory, religion, identity, and black agency.

This book seeks to explore, in a single, short convenient text, the complex relationship between Africa and the Americas from the early sixteenth century through the end of the twentieth century. Beginning with a preview of the relations between Africa and Europe prior to 1500, the work covers chronologically the transatlantic slave trade, domestic slave trading, slave systems, the abolition movements, and the aftermath of emancipation throughout the Americas. Several chapters provide sweeping surveys of broad regions such as British North America, the Caribbean, Mesoamerica, the Andean countries and Latin America. Others deal with specific territories such as the United States, Venezuela, Cuba or Brazil. The book begins with a chapter on African antiquity and early contacts with Europe. It continues with a comparative history of the slave trade and emancipation. Other topics include the role of free blacks throughout the Americas, women and gender relations, and African-American relations with Europeans and Native American populations. Finally, the book concludes with chapters on modern race and economic relations in the Americas and a chapter on the continuing ties between African Americans and Africa. "On the whole Africans in the Americas accomplishes its purpose well, there is a great deal of fascinating information here. A very useful
