A Harvard educated practitioner of the "open-minded skeptic" scientific method presents a follow-up to The Afterlife Experiments in which he drew on principles from psychology, quantum physics, and mathematics to examine the science of human spirituality. Reprint. 25,000 first printing.  
Descending the Spiral Staircase is a vision I encountered during a dream. This is how a simple construction task turns into a murder investigation, stolen bank money, buried storage shed, hidden tunnel, reconstruction of an unused area to a very usable space. John and Marie are the homeowners, one more vision which changes the lives of many people. Open house grand event, brings concern to the family 's safety, nosy neighbor, leak to the press about the bank reward, all of this puts many agencies on full alert. The remodeling magazine wants to film the entire event; police and FBI scan guest photos, looking for unwanted guests. This is not your typical construction project, many twists and turns to the finale. You will tear up and laugh as the characters evolve. This book is inspired through visions and past experiences in the landscape business. I hope you enjoy reading.

In our current social climate of growing distrust and escalation of hatred and personal losses, resentment and anger are on the rise. Resenting God offers the time-tested exit route from the lethal clutches of bitterness into a life of joyful faith and hope in a loving and gracious God. It exposes how resentment and disillusionment, leading inevitably to other destructive emotions, is a great deluder and is itself often based upon a great delusion—resentment against the Creator himself. We are blamers, and we blame God for life 's most painful and depressing experiences. We 've all been there or are there. It can strike any person, anytime, anywhere. If we let down our guard and begin to give in to it, we 'll be pulled into a powerful downward spiral that we can 't escape by our own strength. We find ourselves asking: How can I forgive when the pain is so great? Does forgiving mean I have to forget the past? What if I choose not to forgive? Snyder discusses the causes and consequences of resentment, and the cures for resentment against God. Ultimately, the way out comes in knowing who God is and realizing that far from abandoning us in our hard times, he is the one who rescues us.

Place of publication from publisher's website.  
" It 's All Under Control is the gift your soul has been desperately seeking—to feel how His arms of love are under you, carrying you though it all. " —Ann Voskamp, New York Times bestselling author of The Broken Way and The Greatest Gift It 's time to get our control under control. Jennifer Dukas Lee never thought she struggled with control. As long as everything went exactly the way she wanted it to, she was totally flexible. But then Jennifer discovered what happens when you try to wrap your arms around everything, thinking it 's all on you: You get burned out on hustle. You toss and turn more at night, and you laugh less during the day. You 're so busy—caring, serving, working, and trying so hard—that you can 't even hear God 's voice anymore. It 's All Under Control is a book for every woman who is hanging on tight and trying to get each day right—yet finding that life often feels out of control and chaotic. Join Jennifer on the journey of learning how to: Overcome the anxieties and worries that burden your heart Prioritize your busy life so you can make choices that align with God 's best for you Find freedom through a new " Do, Delegate, or Dismiss " approach to your daily tasks Let go of what God has not asked you to do, so you can shine at what he has Discover a new way of living that will free you to be you, and finally experience the peace of knowing a God who truly has it all under control.

A provocative examination of how the great religious traditions can remain relevant in modern times by incorporating scientific truths learned about human nature over the last century. A single purpose lies at the heart of all the great religious traditions: awakening to the astonishing reality of the true nature of ourselves and the universe. At the same time, through centuries of cultural accretion and focus on myth and ritual as ends in themselves, this core insight has become obscured. Here Ken Wilber provides a path for reenvisioning a religion of the future that acknowledges the evolution of humanity in every realm while remaining faithful to that original spiritual vision. For the traditions to attract modern men and women, Wilber asserts, they must incorporate the extraordinary number of scientific truths learned about human nature in just the past hundred years—for example, about the mind and brain, emotions, and the growth of consciousness—that the ancients were simply unaware of and thus were unable to include in their meditative systems. Taking Buddhism as an example, Wilber demonstrates how his comprehensive Integral Approach—which is already being applied to several world religions by some of their adherents—can avert a " cultural disaster of unparalleled proportions " : the utter neglect of the glorious upper reaches of human potential by the materialistic postmodern worldview. Moreover, he shows how we can apply this approach to our own spiritual practice. This, his most sweeping work since Sex, Ecology, Spirituality, is a thrilling call for wholeness, inclusiveness, and unity in the religions of tomorrow.

Rev. William Sloane Coffin (19242006) for half a century stood as a force for progressive religion in America and in the world. He became famous in the 1960s, when he was chaplain at Yale University, for his very public opposition to the Vietnam War. He was indicted by the government in the Benjamin Spock conspiracy trial, marched alongside Martin Luther King Jr., was jailed as a Freedom Rider, and became one of the most forceful Christian voices in the Civil Rights movement. He then served as Senior Minister of the prestigious Riverside Church in New York City, where he inspired thousands and continued to be a powerful voice for conscience and change. He was the first president of SANE/FREEZE: Campaign for Global Security and lobbied for nuclear disarmament.
