use. CSA B51, Boiler, Pressure Vessel and Pressure Piping Code provides requirements for the proper design and construction of air receivers. The Code is adopted by regulatory authorities across Canada as part of the pressure-equipment regulations governing the design, construction, and use of pressure vessels.

Safety Bulletin -Use of Air Receivers and ... - CSA Group

Both Canada and the United States use the ASME Section VIII-1 code for pressure vessel construction but Canada has a CSA B51 standard that provides a more restrictive definition of what a PRESSURE VESSEL is. Canada also registers FITTINGS – items that in other countries would be considered too small to need registering.
