cummins 8.3 marine for sale | eBay

Durable under demanding conditions, the 8.3 liter engine typically doesn't need a lot of attention, but when it does we have the filters, hoses and fluids needed to keep it running in tip top shape. Beyond standard maintenance, we also have a broad selection of parts for engines like the 6CTA, ISC and QSC ready for any repairs needed.

Cummins QSC 8 3 Marine Diesel Propulsion Engine

I have to say that the BT5.9 engine series, along with the C series 8.3 liter cousins are some of the MOST rugged and very best engines for their size that Cummins has ever built. When I was doing my apprenticeship in the 60's, 220 hp weighed 3500 lbs, was most of five feet long and four or more ft high, and two and a half feet wide.

Cummins Marine QSC 8.3 Engine Test for Ken N.

Cummins Marine QSC 8.3 Engine Test for Ken N.

cb34 --- "6.7 at 350 hp burns 17.6 gph vs 8.3 at 390 hp burns 7.0 gph. The 6.7 specs are not impressive at all." I am not sure these quoted figures are accurate. I am researching the Qsc and have found the GPH:HP as with most ALL engines to be quite similar (At least concerning HP).

Cummins QSC 8.3 500hp | Downeast Boat Forum

Boatdiesel is where you want to look for specific info on this motor. I have no direct experience with that engine, but 550 hp from an 8 liter is a little high strung, keep the hp/ displacement ratio under 60 if you want a long lived diesel. I would think 480 would be plenty for that size hull assuming reasonable weight and speed requirements.
