## **[Book] Investment Banking Valuation Leveraged Buyouts And**

A leveraged buyout (LBO) is one company's acquisition of another company using a significant amount of borrowed money to meet the cost of acquisition. The assets of the company being acquired are often used as collateral for the loans, along with the assets of the acquiring company. The use of debt, which normally has a lower cost of capital than equity, serves to reduce the overall cost of ...

The valuation of operating assets can be done using two different fundamental concepts: a liquidation value and a going concern value. Most of the analysis in investment banking and private equity contemplates valuing a business as a going concern, though liquidation valuation is used occasionally, especially when considering distressed companies.
